

# COBALTEX™

## Near Field Magnetic RF Shielding

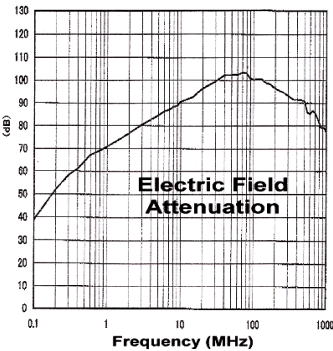

This is a very unique multi-metalized fabric. Of course you get good far field RF shielding: 65-80 dB tested over 30MHz to 1GHz. But in addition, because of the

Cobalt alloy top coating, this material offers remarkable radio-frequency *magnetic* shielding in difficult near field conditions. Great for reducing interference between tightly placed

**Thread Composition**

components. Light weight (only 100 g/m<sup>2</sup>) and very flexible, tight taffeta weave. Resistivity less than 0.1 Ohm/sq. 42 inch wide, silver colored.

**CobalTex™ (Cat. #1271)**
