## PROTECTIVE BEDDING

*Microwave Shielding for the Bed*

Faraday Canopies are great, but sometimes you need a solution that is more portable, less hassle, or simply has the look and feel of "normal". Protective Bedding is the perfect solution, offering good radiofrequency shielding (more than

90% of cellphone and wi-fi signals bounce right off) and made with comfy, washable, *WEAR* cotton fabric which has Silver coated Copper fibers woven throughout. The ultrafine fibers are so small you cannot see them with the naked eye, but show up easily under a microscope. Great feel and without flame retardant. Tested up to 30 washings with almost no loss of performance.
