

CELL PHONE SHIELDS

AIR TUBE HEADSETS

*Anti Radiation Air Tube Headset with Volume Control...
Minimizes Radiation to the Head Area*

If you read the fine print that comes with your cell phone, you will see that even the manufacturer warns NOT to put the phone up to your head. Radiation levels near the phone can be quite high. Using a headset to increase the distance from the phone to your head dramatically reduces your radiation exposure.

Using an AIR TUBE headset has these additional advantages:

- 1- No microwave radiation can travel up the wire to the ear piece
- 2- No speakers or electronics in the earpiece (so no EMF at all from the headset)

Ear-bud style headsets with soft silicone rubber cushions that give good fit and excellent sound quality. Long 34 inch cord with built-in microphone. Better than using speaker phone mode as you can enjoy more privacy and put the phone down. Great for home or work, listening to music, games, and of course... phone calls!

*Includes medium and small medical-grade silicone earplugs for maximum comfort (size can be changed), suitable for all kinds of people. Eliminates ambient noise.

*Call answer, reject and hang up button, which can also control a music player. One short press to start or play music, two short presses for next song

***3.5mm, 3-band plug**, high-quality rust-proof nickel-plated pin

Radiation is reduced...

by more than 1000 times compared to placing the phone against your head
by more than 60 times compared to using ordinary wired headphones
by more than 20 times compared to using a Bluetooth headset

iDoctor mono one ear bud (Cat. #Q203) \$17.95
iBrain stereo two ear buds (Cat. #Q251) \$18.95

HEADSET EXTENSION CORDS

Want to get even further away from your cellphone? These headset extension cords connect between the phone and the headset cable, providing more distance between your head and the phone. You can even string up to 4 extensions together for added length.

Universal: 2.5mm 2 band, 6 foot, black. (Cat. #Q236-ext) \$4.95
iPhone style: 3.5mm 3 band, 3 foot, white (Cat. #Q446) \$4.95
