

CELLPHONE SHIELDS

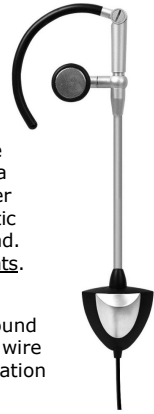

Air-Flow RF3™ iFit HEADSET

Perhaps the Best Idea Yet in Cell Phone Protection

No argument here. If the phone and ALL ELECTRONIC COMPONENTS are further from your head, you will have less radiation exposure. By using a flexible hollow tube to transmit good quality sound from a tiny speaker located at a distance from the head, air tube headset keeps *both* magnetic fields from the phone's speaker *and* microwave radiation away from the head. Both the tube and the comfortable earpiece contain no electronic components. *There is no way for electromagnetic fields to travel up the line into your ear.*

Unique RF3™ technology utilizes a state-of-the-art SPL enhanced sound chamber which delivers a crystal clear sound. By replacing the headset wire with air tube technology, this headset reduces the possibility of radiation reaching your head.

In our tests, this headset reduced electromagnetic radiation by 96% to 99.9%. A smart idea whose time has come. Patented. This unit offers a very unique state-of-the-art sound chamber and comfortable earpiece hook and adjustable support which minimizes ear fatigue.

Air Tube iFit Headset, select your plug type:

(Cat. #D236-212S) Universal type 2.5mm, 2 band \$39.95

(Cat. #D236-213S) Nokia type 2.5mm, 3 band \$39.95

(Cat. #D236-215S) Motorola Razr type USB plug \$43.95

(Cat. #D236-235S) Universal type 3.5mm, 3 band \$43.95

TRANSMISSION		CONDITIONS:
Sensitivity	-58 ± 3dB	@1KHz
Current Consumption	500µ A	
S/N Ratio	40 dB	
Output Impedance	2 KΩ	@1KHz
Frequency Response	300Hz~3.3Khz	Input Impedance 150Ω
RECEIVING		
AC Impedance	32 Ohm ± 15%	@1KHz 1.0V
DC Impedance	29.7 Ohm ± 10%	@20°C
Output S.P.L.	105 ± 3dB	@1mW IEC318 1KHz
Input Power	Rated Power 1mW	Max Power 10mW
Distortion	3% Max.	@1mW 1KHz
Frequency Response	3.0~3.5KHz	Output S.P.L. ± 5dB
OTHERS		
Operating Temperature	-5°C ~ + 50 °C	
Humidity	90~95% R.H.	
Tensile Strength of Cord Termination	13.23 lbs (6.0 Kg)	3 Seconds
Tensile Strength of Air Termination	9.92Lbs (4.5 Kg)	3 Seconds
Net Weight	0.07Lbs	

HEADSET EXTENSION CORD

Want to get even further away from your cellphone? This 6 foot headset extension cord connects between the phone and the headset cable, providing up to 9 feet of distance between your head and the phone. You can even string up to 4 extensions together for added

length. 2.5mm 2 band universal only. (Cat. #D236-ext) \$4.95
