

MAGNETIC SHIELDING

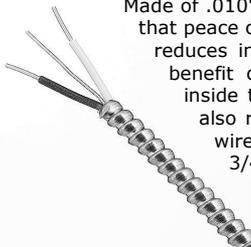

SPIRA-SHIELD® FLEXIBLE CONDUIT

Need Magnetic Shielding Conduit Just For Wiring?

Spira-Shield provides high permeability magnetic shielding and physical protection for any Romex electrical wiring, speaker wire, or whatever cables you might want to shield.

Made of .010" thick Magnetic Shielding Alloy. Slips over standard wiring to provide that peace of mind when it *must* be near electromagnetically active sources. Also reduces interference in stereo and telephone lines. Ground it for the added benefit of E-Field shielding. *For clarification:* this item protects the cable inside the shield from magnetic fields originating outside the shield. It will also reduce magnetic field emissions if you have balanced current in the wire (not if you have net current). Thin is 3/8" ID and 1/2" OD. Wide is 3/4" ID and 7/8" OD. Priced per foot of length. 10 foot minimum order.

Thin (Cat. #R275-T)..... \$24.10 / ft

Wide (Cat. #R275-W)..... \$29.10 / ft

SHIELDED SWITCH PLATES & OUTLET COVERS

Reduce Emissions at the Source

Outlets and switches can emit strong electric and magnetic fields. Conventional shielding with Mumetal® is possible, but tricky because it's hard to make it look good, *plus* you need access to be able to use the switch/outlet. Now you can simply replace your Switch Plate or Outlet Cover with these custom shielded ones.

Magnetic field reduction is 30 to 60% up close to the surface, depending on wire configuration. For severe cases, you can stack a double layer. Electric field reduction is typically 75%. Attractive polished chrome finish with a nice perimeter detail. Solid metal (shielding alloy) and durable. Includes mounting screw(s). Two sizes: oversized (3½x5½") and super jumbo (5½x7½") for maximum protection. Make sure you have enough room between outlet and nearby moldings for these larger than standard covers. Very economical!

Shielded Switch Plate

Oversize (Cat. #R720) \$9.95 each

Oversize, 10 pack (Cat. #R720-10) \$80.00

Super Jumbo (Cat. #R721) ... \$29.95 each

Super Jumbo, 10 pack (Cat. #R721-10) \$250.00

Shielded Outlet Cover

Oversize (Cat. #R722) ... \$9.95 each

Oversize, 10 pack (Cat. #R722-10) \$80.00

Super Jumbo (Cat. #R723) ... \$29.95 each

Super Jumbo, 10 pack (Cat. #R723-10) \$250.00

Double Outlet Cover, Oversize (Cat. #R724) \$11.95
