

CELL PHONE SHIELDS

RF Kill Box™

Shielding So Good That Your Phone Won't Ring

Most cellphone shielding products are designed to reduce radiation to the user while still allowing the phone to function. This means that some radiation can still get to the phone... *and some radiation can still get out of the phone!* But sometimes you need to completely kill the signal. The RF Kill Box is a full-metal shielding jacket with very high shielding performance. You probably know that different phones have differing signal quality... depending on your carrier, your location, and your phone model. A strong signal is harder to kill. In our tests, 99% of the phones we tested would not function when in the Kill Box under any circumstances. The metal slip on cover is quick and easy to use and provides a good seal. Inside diameter is 95mm (3 3/4") and the height is 170 mm (6 5/8"). Large enough to hold most phones, but check your dimensions. **RF Kill Box (Cat. #R316) \$18.65**

CRUZ CASE for iPhone 6,7,8 or 6+,7+,8+

Blocks The Microwave Signals Directed Toward Your Head And Body Without Affecting The Signal To The Cell Tower.

Simply snap your phone into the dent resistant bumper cradle. Flip the Cruz Case lid open to receive or make calls, then close back into protective mode. To use properly, flip open the Cruz flip lid cover to answer a call, flip back the cover over the face of the phone and talk through the flip lid cover with perfect clarity. Always keep the

flip lid cover between you and your phone even when carrying in your pockets. The attractive and stylish Cruz Case technology provides up to 60dB at cell phone frequencies. Patent pending design does not affect the signal to the cell tower. Ultra-slim design also provides scratch protection for the display and helps keep the screen clean. Keeps your phone looking new. Includes credit card holder feature as well. Select desired color.

Cruz Case i678 Brown (Cat. #R246-678BR) \$39.95

Cruz Case i678 Black (Cat. #R246-678BR) \$39.95

Cruz Case i678+ Brown (Cat. #R246-678+BR) \$44.95

Cruz Case i678+ Black (Cat. #R246-678+BR) \$44.95

ANTI-RADIATION HOLSTER

With Shielding and Belt Clip

What a simple and universal way to carry your cell phone and reduce your exposure to harmful wireless radiation! Powerful shielding material lines the back of the holster and reflects up to 99% of cell phone radiation away from your body. It uses well established science- inside each holster is a layer of metalized high tech fabric that forms a barrier to EMF radiation. Just attach the holster to your belt and slip in your phone. The shield doesn't alter the behavior of your phone, nor cause increased drain of your phone's battery. *The shield blocks the radiation that would have otherwise been absorbed by your body and reflects it away.*

- Deflects up to 99% of the wireless radiation, conveniently attaches to your belt or pocket
- Shields on one side only; Does not interfere with phone function or battery life
- Comfortable, stylish, thick padded elastic black Neoprene outer shell is feather light
- Large size has convenient Velcro flap to close, and plastic belt clip
- Extra large size has open mouth and rugged elastic belt loop

Cellphone Anti-Radiation Holster:

Large for phones up to 5.75"x2.75" (Cat. #R336-L) ... **\$29.95**

Extra-Large for phones up to 5.75"x3.25" (Cat. #R336-XL) ... **\$29.95**
