

SCHUMANN RESONANCE

EARTHSAFE Pocket

Portable TUNABLE Schumann Device

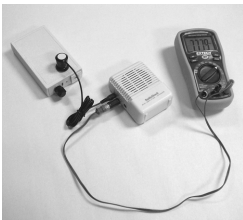

We all know that our bodies are very delicate electromagnetic senders and receivers. And each of us is different (even unique) in the ways in which our bodies interact with the electromagnetic environment. By creating a Schumann

device with a variable capacitor, the Earth-Safe has the unique ability to be tuned from about 2 Hz to over 20 Hz to produce the exact frequency that will give maximum benefit to your specific body. And it can be re-adjusted in seconds at any time, for any new circumstance, including the changes taking place in the Earth's natural field. You may notice a difference immediately. Some people have said that it feels as though an invisible weight has been lifted off their shoulders. Irritability, eye strain, and general tiredness from using electrical appliances can feel lessened. Pocket sized (5¹/₄" x 2³/₄" x 1"), lightweight (only 6 oz.), it goes with you wherever you go. Tuning is easily done with simple muscle testing. Tune up your protective energy field with Earth-Safe. 9v battery included, made in USA.

EarthSafe Pocket (Cat.#Q380) \$169.99

EARTHSAFE Tuning Kit

EarthSafe produces a measurable electromagnetic field. The frequency of this field can be varied from about 2 Hz to about 25 Hz. Using this kit, you can measure the

frequency of the EarthSafe output, and precisely adjust it to any desired setting. This Low Frequency Counter (which measures the actual output of the EarthSafe), with Magnetic Pick Up and Amplifier combination does the trick. Very high resolution (0.001 Hz). Make sure you do your calibration away from sources of 60 Hz fields as the frequency counter reports the frequency of the predominant signal. Can be used with either version of EarthSafe. *EarthSafe sold separately.* Requires one 9V battery.

EarthSafe Tuning Kit (#Q383) ... \$89.75

EARTHSAFE Whole House

Table Top Unit.

Stronger than Pocket Version.

Same tunable Schumann circuitry, but more powerful to cover a larger area.

Some say it adds sound depth to high end audio equipment. Includes optional ground cord to inject the signal into the wiring of your building. 12V adapter plugs into AC outlet so no batteries to wear out. North American adapter supplied. **(Cat. #Q381) \$249.95**

SCHUMANN SIGNAL GENERATOR

Precision Tunable, Adjustable, Powerful

The benefits of the Schumann Resonance have been discussed at length. With this device you can precisely select any frequency from 0.01 Hz to 2 MHz, and adjust the power output as well. Produces a mammoth intensity signal: from 1 mG to over 50 mG! Detectable up to 4 feet away. Digital display leaves no uncertainty about what frequency is selected. Includes memory for up to 10 favorite frequencies. USB powered from your computer or AC adapter (provided).

This unit can also be used as an Audible Tone Generator or Frequency Counter. Produces Sine, Sawtooth and Square wave patterns. Step by step instructions included. Puts the full power of the Schumann Resonance in your hands!

Schumann Signal Generator (Cat. #Q388) \$149.95
