LOW EMF DEVICES

ULTRA LOW EMF TELEPHONE

Great Solution for Your Home/Office Phone!

A full featured desktop or wall mount corded telephone (no microwaves) combined with a special ultra low EMF headset. You get all the benefits of a normal telephone without putting yourself close to the strong magnetic fields associated with the handset, speakerphone, or phone base. The special headset cord is about 3 feet long and uses a plastic tube to carry the sound to your ear. Absolutely no electronics, wires or magnets are near your ear. Cord provides distance from telephone base and traditional handset, convenient mobility, and can be extended up to 15 feet with optional extension cord, sold separately (see below). Tested and approved by Less EMF Inc., dramatic field reduction when the headset is used.

No special wiring or installation is required. Phone includes volume control, speed dial, redial, speakerphone and hold features. Now with caller ID feature as well! Does NOT have answering machine. Phone can also be used in normal fashion by those not affected by EMF. Phone color and styles may vary. *The phone itself does not have any special shielding nor EMF reduction technology. The whole benefit is that it has the jack for the special air tube headset.*

Ultra Low EMF Telephone: (Cat. #R725) \$99.95
***Headset Extension Cord (12 ft long): (Cat. #R236-EXT) \$4.95**

Already have a phone with a headset jack? You can order just the headset!
Ear Bud Air-flow Headset with 2.5mm Universal jack (#R281) \$19.95

BEST NON-ELECTRIC TOOTHBRUSH

Unique Deep V-groove Bristles For Maximum Performance

Ask your dentist: the oral bacteria which cause dental problems concentrate where the tooth meets the gumline. If you can't position the toothbrush bristles on your teeth at the gumline, then the bacteria build up *despite your efforts*, and plaque, gingivitis and other periodontal diseases occur. The simple Deep V-Groove design of this manual brush's bristles allows anyone to correctly position the bristles at a

45° angle, *automatically* assuring the most effective means of plaque control! 0.008" Soft DuPont Tynex® Nylon monofilament bristles, 5 Row 53 tuft, end-rounded polished bristles. *We think you'll agree: this is the easiest, most-effective toothbrush we've seen.* Get rid of that electric toothbrush! **(Cat. #R717) \$2.95**

BABY MONITOR SHIELD

Simple & Effective Way to Reduce Microwave Radiation When You Must Use a Baby Monitor

As parents ourselves, we were shocked to see the amount of RF radiation given off by wireless baby monitors. It is as strong as the worst cellphone, and transmits for the entire time it's on.

Of course you need to keep an eye on your baby, but what about the harmful RF radiation sprayed by baby monitors? The **Baby Monitor Shield** reduces up to 90% RF from your baby monitor, helping both you and your child lower your exposure while you sleep, without disrupting the signal between the camera and the monitor.

The **Baby Monitor Shield** is extremely lightweight and flexible, yet still durable, and takes only seconds to install. You get two shields (one for the camera and one for the monitor), each measuring 5"x7", which can be trimmed with scissors if necessary to ensure a perfect fit. It fits most standard baby monitors. Makes a great baby gift! **Baby Monitor Shield (Cat. #R750) \$19.95**
